

## Fire Prevention Efforts Show Good Results In Y-12

"Fire prevention efforts in Y-12 are definitely bearing fruit," according to P. C. Dabbs, Fire and Guard Department. As the nation observes fire prevention week this week (October 4-10), the plant has already been busy in inspections, re-inspections and such. Flyers were placed on the windshield of each employee's auto in the parking lot . . . so that prevention of fire education could be taken home.

Some of the comments from divisional inspectors sound like this:

"Very briefly, our area we found to be in excellent condition as far as fire hazards are concerned. In comparison with a year ago, definite progress has been made toward Y-12ers thinking about fire hazards. I think this is largely due to our publicity and closer coordination with plant personnel." . . . Harold Babb.

Product Engineering

"Fire prevention certainly should be practiced each day. The special emphasis program, as designed this year for fire prevention activities, created wide interest as indicated by phone calls that resulted from the inspections. Some areas were found in real good condition while on the other hand, in certain locations, real serious fire hazards were discovered." . . . Ernie Bentley, Industrial Relations.

"The inspections during Fire Prevention Week showed conditions, in my opinion, to be a great improvement over previous inspections. Credit can be given

to Spring Clean-Up and the maintenance of emphasis placed on good housekeeping. 'The sweep under the rug' and 'tenny fuses' attitudes have been replaced in most cases. This adds up to positive results and it is showing." . . . John W. Minchey, Maintenance.

"I want to say that we found conditions generally good, but a definite need for improvement in housekeeping in some areas." . . . Tom Andress, Engineering.

"We need to practice fire prevention and good housekeeping the year 'round, in my observation, in order to have an effective program." . . . M. C. Bays, Materials and Services.

"As a member of a fire prevention inspection committee which must have walked at least 1,000 miles this week, two things were apparent throughout the inspection: First, some areas are easier to keep clean and free of fire hazards than others; but second, and most important, it was apparent that almost everyone had genuinely tried to clean up and eliminate fire hazards in their areas. What seems to be needed now is to extend the attitudes and efforts of Fire Prevention Week over the entire year." . . . Keith Kahl, Fabrication.

"Poor housekeeping, potential fire hazards and abuses of fire-fighting equipment found in some of the buildings in Zone 4 on past inspections have been corrected. The preliminary inspection for Fire Prevention Week this year indicated that much thought and effort have been used to eliminate potential fire hazards. Two potential fire hazards of the more serious nature type found on this inspection were brought to the attention of the immediate supervisor and corrected on the spot." H. T. Greene, Jr. Metal Preparation.

"Basically, all buildings and areas visited and inspected during Fire Prevention Week demon-

On Accident-Free Hours

LOUISE STODDARD, Wage Standards, examines the fine door prizes and costume awards that will be given away at Friday, October 23's Big Dance. The awards include such items as two transistor radios, an oven broiler, a deep-fat fryer, a food blender, stainless steel steak knives, two serving trays and a waffle-iron toaster combination. Y-12's big fall dance will feature Halloween costumes and the transistor radios will go to the best-dressed man and woman there.

## Big Halloween Dance Is Set For Y-12ers At Oak Terrace, Friday, October 23 . . .

Breaking tradition with the past, Y-12 is having a Fall Dance! Instead of the usual Christmas affair (there are too many parties around the holiday anyway) Recreation is staging a gala masquerade ball . . . Friday, October 23.

The theme, of course, is Halloween, so all you ghosts and goblins, guys and gals . . . come on out. Bill Lawson's smoooooth orchestra will be on hand to bring the couples to their feet in a dance.

Admission is only \$1.50 per . . . or \$3 per couple.

There are door prizes aplenty . . . even awards for the best male and female costume attending.

Ticket-sellers are posted throughout the plant . . . as well as at the Cafeteria, and in the Recreation Office, Building 9704-2.

Plant ticket-sellers are:

Shirley Brown	9720-8
Jo Ann Isham	9212
Wanda Livesay	9212
Ann Ware	9204-2
J. C. Thompson Jr.	9201-1
Kathleen Milligan	9201-1

Doris Mathis	9706-2
Daisy Ward	9995
Gene Barnes	9733-2
Dottie Fielder	9720-6
C. M. "Hap" West	9711-1
Frances Donahue	9734
Jeanne Cothron	9201-5
Fayne Duncan	9215
J. P. Smith	9733-2
Betty Whitehorn	9202
Ella Stansell	9723-15
Helen Long	9723-14
Clarice Cagle	9739
Jo Walpool	9204-4
Mildred Scott	9706-2

THE BOYS CLUB, a vital part of Anderson County's United Fund, fills a great need in the community. The handsome field above, near the Atomic Museum, was

cleared and is maintained by the boys in the club. They use it for football and other games. The Boys Club is merely one of the many services that are

made possible through gifts . . . the United Way . . . through the United Fund. Remember, 'One Gift Works Many Wonders' through the United Fund.

## W. F. Thomas Speaks At IEEE Meeting

William F. Thomas

The Oak Ridge Section of the Institute of Electrical and Electronic Engineers will meet in the Green Room of the Ridge Recreation Hall, tomorrow, Thursday, October 8, at 7:30 p.m.

W. F. Thomas, Y-12's Fabrication Division, will speak on "Numerically Controlled Machining." After receiving a BS degree in Mechanical Engineering from the University of South Carolina, Thomas came to Y-12 in 1958. He is presently in charge of the Machine Tool Engineering Department as well as a special processing operation in the Fabrication Division. Thomas is chairman of the Knoxville-Oak Ridge chapter of the American Society of Tool and Manufacturing Engineers.

All interested persons are invited to attend. Refreshments will be served after the meeting.

## ASME Meet Is Tomorrow With Veep Speaker

The Oak Ridge Subsection of the American Society of Mechanical Engineers will meet tomorrow, October 8. The meeting is set at the Oak Ridge Holiday Inn, with dinner beginning at 7 p.m. and the technical session at 8.

Harold K. Couch, ASME regional vice president, will speak on "Why I Belong to ASME."

Reservations for the dinner can be made by contacting D. L. Gray, extension 7653.

## Netherlands Work Is Seminar Topic Thursday

Herman Postma will discuss "Plasma Physics Research in the Netherlands" at this week's Thermonuclear Division seminar.

The seminar is set for Thursday, October 8, at 9 a.m. in the TD Conference Room, 9201-2.

One of the sadder facts of life is 'what ever became of the Elvis Prestley fans? It's not that they have deserted to those four lads from Britain who could use a good haircut (there's a new crowd that has come along for them.) It's just that all of us out-grow our tastes.

Good thing, too. Who would like a man that carried garter snakes in his pocket?

News this week commences in

### FABRICATION

The H-2 Department sends word that Paul Peterson is trying to recuperate from the late hours he spent watching the conventions on TV. Just think, only three more weeks 'til he can sit up and watch the election!

"Little Lube" Barker is back to the lakes again.

Visiting his relatives on vacation was H. Trivett . . . Ed Sise spent his vacation fishing and golfing . . . J. C. Kendrick said that he would get in a little golf after the first part of the week. Seems the boss had the first few days planned for him.

Planning to attend the races at Darlington was L. D. Copeland. Wonder if he made it? . . . D. A. Davis, E. H. Prorise and G. L. Rule sort of snook off without giving any destination . . . Glad to see "Chap" back after a time off with a bad infection . . . Joe O'Neil just relaxed at home on his vacation . . . Everybody wishes a speedy recovery to H. K. Hughes and J. C. Gibbs.

Welcome to Wayne Oaks . . . transferring in from the General Machine Shop.

Ray Aytes vacationed in Florida . . . B. R. Sparks returned from playing soldier for two weeks.

The General Machine Shop has T. M. Akers vacationing, going to Virginia to help his mother celebrate her 91st birthday.

Other vacationers include O. Young, D. L. Bowers, J. K. Stewart, and J. C. Wilkes.

A host of folks have been ill . . . or are still on the ailing list . . . Best wishes to all of them: E. R. Easterday, H. V. Evans, C. M. McCarley, J. D. Morris, M. A. Parrish, J. W. Price, T. I. Reasor, W. G. Shaw, W. H. Asbury, J. C. Chamblee, C. E. Graves, I. O. Keller, J. A. McKenney, L. B. Morrow, C. Tharp and D. M. Willey.

The L. G. Lankfords spent a recent week-end in Nashville visiting their son.

C. P. McLemore boasts a new addition to the family . . . a son-in-law . . . Leon Thometz spent a recent week end on ye ole campground . . . with some fishing thrown in.

Philip Douglas Brewer

Gordon Brewer is struttin' around the shop these days . . .

over a baby boy, Philip Douglas Brewer, born September 11 . . . at Oak Ridge Hospital.

Sympathy is extended to H. M. "Cotton" Jenkins on the recent death of his father, Mr. Fate Jenkins, Knoxville.

O. K. Sergeant recently saw off-spring off to college in all directions . . . Suzie to Florence State; Kenny to LMU; and Ronnie to Auburn.

The department welcomes old friend Liz Campbell into its midst.

Visiting Kathleen Milligan recently were Dr. and Mrs. Carter Keeton, from Decatur, Alabama. The Keetons stopped over from a World's Fair visit . . . C. E. Bolyard vacationed recently to see his daughter Pattie wed in Kingston, Tennessee, September 26 . . . J. R. Thorpe took off for St. Petersburg, Florida. They expected daughter Pat Neilsen to join them there.

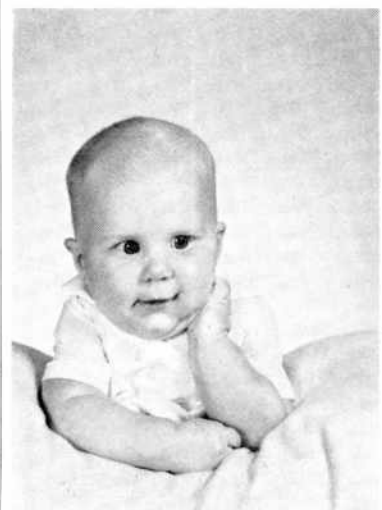

Machine Maintenance tells that F. E. Cox slipped off without telling his plans . . . as did H. H. Sanning . . . H. L. Hunter went to sunny Mexico.

The Specimen Shop says that E. C. Stinnett went to Atlanta, Georgia, for part of his vacation . . . and S. H. Davis went to Birmingham, Alabama.

The person who has everything should be quarantined.

### PRODUCT ENGINEERING

The big news for the division this week is a dance . . . coming up October 30 . . . just a week after Y-12's big Fall shin-dig. (See story elsewhere.)

Michael Kerry Nelson

Special Projects folks got a good look at Michael Kerry Nelson . . . son of John and Kathy Nelson. John's an SPER and Kathy is a former ORNL employee. Little Mike is only five months old and the only child in the family. Spoiled? Of course, not!

Tool Engineering bade farewell to Ted Sizoo and Ross Goosie recently, as they transferred to Oak Ridge National Laboratory.

Gal to perfume saleslady: I would like something that will bring out the mink in a man without disturbing the wolf.

### SHIFT SUPERINTENDENTS AND UTILITIES

Folks vacationing include John McCall cutting the 'bacca and doing a little grubbing . . . D. Stev-

FROM LEFT TO RIGHT, are Margaret Baker, Mattye May, Martha Beals Burger and Dell Goins at a recent shower in honor of Mrs. Burger who was married September 5, in Georgia.

## Martha Beals Burger Is Honored With Bridal Shower

A recent bridal shower was given to honor Martha Beals Burger, Uranium Chemistry. Mrs. Burger was married Saturday, September 5, to Mr. Wayland Burger of Birmingham, Alabama. The marriage was performed in Georgia.

Hostess Mattye May and other co-workers gathered at the May home, 116 South Purdue Avenue,

Oak Ridge, for the shower. Many lovely gifts were given the new bride.

Attending were Dennie Roberts, Eleanor Duke, Lennie Jeffreys, Iva Jones, Wilma Trebilcox, Katy Blankenship, Laura Hawkins, Sue Johnson, Allie Baer, Grace Boyd, Polly Patterson, Dell Goins, Margaret Baker, and the hostess Mattye May.

## Instrument Society Meet Is Tonight

The Oak Ridge section of the Instrument Society of America will hold its regular meeting, tonight, Wednesday, October 7. The meeting is set at the Oak Ridge Recreation Hall, and will begin at 8 p.m.

A talk by John Scott Jr., Leeds and Northrup Company, will describe the instrumentation at the Tennessee Valley Authority's 900 KW Bull Run Generating Station, which utilizes a new concept in boiler control called DEB (Direct Energy Balance).

All interested persons are invited to attend.

## Fencing Enthusiasts In Y-12 Are Sought

En garde, ye fancy swordsmen! Y-12ers interested in the classic art of fencing are invited to the Oak Ridge Fencing Club's meeting tonight, Wednesday, October 7.

Instructions and matches are set every Wednesday at the Elm Grove School at 7 p.m.

If you are interested, just come along. Instruction is available, and no equipment is needed to begin. Masks, chest protectors, and epees will be needed later on and may be ordered through the club.

ens went to Johnson City where his father is ill . . . C. Welch fished the old favorite holes in Norris Lake . . . J. H. Thomas just stayed at home.

Sympathy is extended to E. D. Lay on the recent death of his father.

That's it.

Porcupine: Portable cactus.

A total of 210 years of Union Carbide Corporation service is observed this week in Y-12 . . . nine observe 20 year anniversaries . . . and three see 10 year landmarks. Congratulations.

### 20 YEARS

William G. Vann, Stores Department, October 7.

William F. Smith Sr., Chemical Services, October 8.

Perry H. Redmon, Stores Department, October 11.

Sidney R. Anderson, H-1 Foundry, October 11.

John G. Harris, Research Services, October 11.

Joseph O. Parker, 9215 Rolling, October 12.

Robert L. Martin, Buildings, Grounds and Maintenance Shops, October 12.

Thomas R. Webber, Machine Tool Engineering, October 12.

Hubert B. Harlan, Assembly Operations, October 13.

### 10 YEARS

Keith C. Parsons, General Machine Shop, October 11.

Walter R. Hensley, Tool Engineering, October 11.

Glynn F. Beck, Area Five Maintenance, October 11.

## Badge Exchange Ends Next Wednesday Night

If you haven't picked up your yellow-bordered badge for the quarterly badge swap, you'd better do it now.

The old blue-bordered badges will not be honored at the portals, after 11 p.m., next Wednesday, October 14.

See that your badge has been traded in the self-service racks at the portals.

**HAPPY E LEAGUE OFFICIALS** see the day-light bowlers merrily on their way for another season. From left, are D. Hill, vice president; Fred Rosko, secretary-treasurer; and Norm Kuneman, president.

## Alley Bees Still Top E League Team

### Foursquares Sweep Week's Team Highs

The Alley Bees held a tight rein on first place in the E Bowling League last week, by splitting two points with the Ten Pins, their closest competitors.

The Foursquares took a four-point sweep from the Pintwisters . . . and the Cannon Balls and Hot Shots split two apiece.

J. Kirschler, Hot Shots, posted a 206 single scratch game . . . and a 237 handicap one tying with A. Steel, Cannon Balls. R. Horne, Foursquares, took handicap series highs with 527 . . . and Steele's 625 handicap series was tops.

The Foursquares swept team honors all the way . . . taking singles of 659 scratch, 792 handicap . . . and series of 1814 scratch and 2326 handicap.

League standings follow:

Team	W	L
Alley Bees	14	6
Ten Pins	11	9
Cannon Balls	9½	10½
Foursquares	9½	10½
Pintwisters	9	11
Hot Shots	7	13

### ALL WRONG

Wife reading her husband's fortune on a scale card: "You are a leader, with a magnetic personality, witty and attractive to the opposite sex."

"It has your weight wrong, too, Joe," was her comment.

## Product Engineer Folk Plan Dance

More than ghosts and goblins will be howling and leaves swirling on Friday, October 30. The Product Engineering Division is planning a big fall dance at the Holiday Inn.

Couples aplenty will be twirling to the toots, twangs and tinnabulations of Charlie Baker's Five from 9 p.m. to 1 a.m. Sitting and resting of feet and (uh) other bones will be equally enjoyable as entertainment will be supplied by the famed and charming Sisters Four.

During intermissions, drawings will be held and door prizes of a beautiful TV set, lesser appliances and perfume (?) bottles will be given to lucky stub-holders.

Admission is \$2.50 per person. The dance committee, headed by Ed Cothron, Product Planning, is composed of George Drevik, Special Projects; Jeri Kobisk, Product and Gage Design; Don Latham, Tools and Materials; Mike Mount, Fabrication Schedule; Bill Myers, Numerical Controls; Joe Sherrod, Production Planning; and Frank Winstead, Fabrication Coordination. Tickets may be obtained from committee members or their appointed representatives . . . who are all planning to bewitch you October 30.

### DAY-DREAMING

Have you heard about the student who dreamed he was listening to a dull lecture in school. He woke up and he was!

## Sunflowers Take Firm C Alley Lead

Clean sweeps were the word in the C Bowling League last week . . . as five teams downed opponents by four points. The Sunflowers swamped the Rounders, the Hookers reduced the Hilifers, the Five Roses felled the Shud-A-Beens, the Parbusters broke the Big Five and the Lucky Strikes struck their way over the Rodders.

The only other score saw the Strikers take two and one-half points at the expense of the Badgers.

J. D. Collins, Five Roses, rolled the high single scratch of the week with a 228 . . . while Hugh Nichols, Parbusters, took handicap singles with a 267. Carl Frazier, Strikers, had high series of 582 scratch and 678 handicap.

The Badgers handled high scratch scores, posting an 881 in singles and 2528 in series. The Lucky Strikes took handicap highs, rolling 1022 single and 2982 series.

League standings follow:

Team	W	L
Sunflowers	1	1
Hookers	9	3
Five Roses	8	4
Parbusters	8	4
Badgers	6½	5½
Shud-A-Beens	6	6
Big Five	5	7
Lucky Strikes	5	7
Rodders	4	8
Rounders	4	8
Strikers	3½	8½
Hilifers	2	10

## Recreation

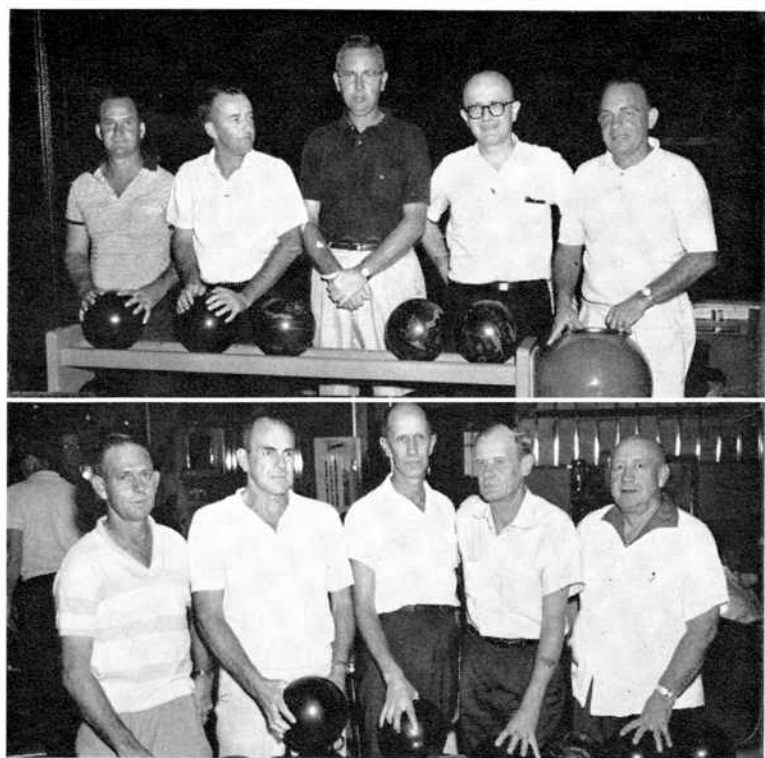

**Monday, October 12**  
**BOWLING:** C League, 5:45 p.m.; Bush League, 8 p.m. (Ark Lanes)  
**TABLE TENNIS:** 7:30 p.m. (Wildcat Den)  
**Tuesday, October 13**  
**PHYSICAL FITNESS:** 7:30 p.m., O. R. High School Gym  
**Wednesday, October 14**  
**BOWLING:** E League, 10 a.m.; Mixed League, 8 p.m. (Ark Lanes)  
**Y-12 PISTOL LEAGUE:** 7:30 p.m., Anderson County Gun Club  
**Thursday, October 15**  
**BOWLING:** Classic League, 5:45 p.m. (Ark Lanes)  
**Y-12 RIFLE LEAGUE:** 7 p.m. (Anderson County Gun Club).

### ACTIVE T-MEN

During 1963, the United States Secret Service arrested 662 persons for counterfeiting and seized 47 counterfeiting plants.

With all the Beatle wigs, it's a wise father that knows his own children.

**MORE CLASSIC LEAGUE** bowlers who make up power-houses in the Thursday night league are shown. In the upper photo are the Wolves, from left, Bill Maddux, Gene O'Hara, Ed Gambill, R. D. Smith, and Walt Sherrod. In the bottom pix are the Rebels, L. E. Sikes, Arnold Tiller, Jack Spears, C. G. Hubbard and U. G. Riddle.

## Alley Cats And Goofers Lead Mixed Bowlers

The Goofers moved up to tie with the Alley Cats for first berth in the Y-12 Mixed League for bowlers last week. They decimated the Chumps for three points. Other three pointers were taken as the Blue Angels ousted the Alley Cats . . . The Twisters tamed the Turtles . . . and the Alley-Oops-Bingos tilt ended in a draw, both teams sharing two points.

Janet Schenk, Twisters, took single highs . . . posting a 169 scratch, 232 handicap score. Sandra Stambaugh, Chumps, came through with series highs, taking 435 and 582. Bog Hagood, Goofers, rolled high singles on the male side, with a 202, 241 game. George Cantrell, Turtles, took a 533 scratch series . . . and A. V. Bible, Alley Oops, rolled a 645 handicap series.

The Goofers swept the team boards, rolling singles of 676 and 842 . . . and series of 1810 and 2308.

League standings follow:

Team	W	L
Alley Cats	8	4
Goofers	8	4
Blue Angels	7	5
Chumps	7	5
Turtles	5	7
Twisters	5	7
Alley Oops	4	8
Bingos	4	8

## Rainy Weather Slows Tennis League Some

Only one tennis match was recorded during the rainy past week. Somehow Ralph Levey and Dick Huber squeezed their sets in. Levey took them 6-4 and 7-5.

League standings follow:

Player	W	L
Bill Akers	3	0
Sam Campbell	8	1
Ralph Levey	6	1
John Pridgeon	3	1
Ed DelGrande	3	2
Bob Bass	3	3
D. W. Hackett	3	3
Campbell King	3	3
Dick Huber	2	4
Roy Huddleston	2	6
Don Legacy	1	6
John Jones	1	3
Al Fischer	0	5

## Has Beens Move Up In Classic Alleys

### Wasps' Hoppe Posts A 244 High Game

The Has Beens moved up to tie the Eightballs for first place in the Classic League for Y-12 bowlers last week, by downing the Splinters for the full count. It was the only four-point win of the night.

Three points went to a host of teams, as the Tigers tamed the Wasps, the Markers marked better than the Eightballs, the Playboys out-played the Smelters, the Bumpers bumped the Cubs, the Swingsters swung past the Rebels, the Wolves out-manned the Screwballs and the All Stars ripped the Rippers.

W. C. Hoppe, Wasps, took high single honors, rolling a 244 scratch, 268 handicap game! Ted Higgins, Playboys, and Jack Spears, Rebels, took series highs in scratch play, each with 584 . . . and Higgins came through to post high handicap series total of 695.

The All Stars took singles highs with 895 scratch, 1055 handicap scoring. The Smelters posted high series scores of 2518 scratch, 2989 handicap.

League standings follow:

Team	W	L
Eightballs	14	6
Has Beens	14	6
Splinters	13	7
Tigers	12	8
Smelters	11	9
Rippers	11	9
Markers	11	9
Wasps	10	10
Screwballs	10	10
Playboys	10	10
Bumpers	10	10
Swingsters	9	11
Wolves	9	11
All Stars	9	11
Rebels	4	16
Cubs	3	16

**PRESENTING THE TRUE TONES** . . . from left, Lanny Green on the organ; Joby Wheat, sax; J. D. Henderson, vocalist; Gerald Barber, lead guitar; Neal Walker, bass guitar; and Richard Way, drums. The True Tones have a Spot record out called "Lovin' From My Baby." Lanny and Gerald are sons of Y-12ers . . . Lanny, the son of C. J. Green and Gerald is the son of J. R. Barber, Guard Department. The combo was formed by young Barber.

By the time you can read women like a book you need bifocals.

**UNION CARBIDE  
CORPORATION**

 Post Office Box Y

**THE CHARMS** . . . or left to right . . . Margie Bullock, Ann Harness and Susie Harness . . . who have just recorded their first record "Across the Street from the Chapel." The Harness girls are daughters of Charles E. Harness, Y-12's General Weld Shop.

## Y-12er's Daughters Cut Disc As A Trio Called 'The Charms'

It looks like the teen-aged children of Y-12ers might be going into the recording business . . . another group has come up with a disc just released . . . this time it's the Charms. The girl trio consists of Margie Bullock, Ann and Susie Harness, two sisters and a cousin. (The Harness girls are the daughters of Charles E. Harness, General Shop Inspection. Margie is the daughter of Harvey Bullock, an Oak Ridge Gaseous Diffusion Plant employee.)

All three girls are graduates of Jacksboro High School.

Their newly released record "Across the Street from the Chapel" was recorded at the RCA Victor Studios, Nashville. Among the members of the band accompanying the Champs are Boots

Randolph, Yakety-Sax-Man, Bobby Moore, guitar and a blind pianist called "Pig Robbins." The record is under the Candle-Glo label . . . and is backed on the flip side by "What Happens to Me." The Jordonaires accompany the Charms on both songs.

The Charms have been singing together since they were small children, and have appeared many places over East Tennessee. In 1963, they won first place at the state-wide Beta Club Convention talent show in Nashville. They also have their own rock 'n roll band. Margie plays the electric guitar, Ann piano and Susie the drums.

Both the Harness and Bullock homes are in Caryville, Tennessee.

Good luck, Charms, with your new record!

## Y-12 Fall Dance

Continued from Page 1

**R. T. Cantrell** . . . 9704-2  
**Cafeteria** . . . 9711-5

The big dance is planned for the Oak Terrace Friday (that's Friday, October 23 . . . or two weeks from this Friday) . . . so mark it on your calendar now.

Dancing is from 9 p.m. until 1 a.m. No table reservations will be made, as usual. If you want to save your party a table, just arrive a little early . . . and wait on them.

Get up a table now and plan to attend Y-12's big Fall Halloween dance. You'll get a chance to see some of your fellow workers as they really are . . . as the Ape Man, Frankenstein, Dracula, and King Kong.

See you Friday, October 23, at the Big Dance!

## Nondestructive Testing Group Meets Tuesday

The Oak Ridge Section of the Society for Nondestructive Testing will meet at the Holiday Inn, Oak Ridge, next Tuesday, October 13. The dinner meeting will begin at 6:30 . . . with the technical session set at 8 p.m.

Norman S. Beyer, Argonne National Laboratory, will speak on "Scintillation Counting."

Dinner reservations may be made now through the local SNT secretary, K. V. Cook, on extension 6640.

All interested parties are invited to attend the meeting.

## MIGHTY QUAKE

The most destructive earthquake in history occurred in China in 1556. It claimed 830,000 lives.

## Fire Prevention

Continued from Page 1

strated that personnel are aware of the value and necessity for clean, orderly work areas and fire prevention measures. I feel that everyone at sometime should serve on an inspection committee to re-emphasize the value of this type program.

Additional personnel orientation for better fire prevention might include: 1. More information on fire door locations and associated procedures and 2. Emphasis on maintaining access to all fire alarm systems and fire fighting equipment." . . . Jim Keeton, ORNL Isotopes Division.

"The preliminary inspection of Zone 1 made prior to the Fire Prevention Week shows relatively few fire hazards in the 29 buildings of this zone. The most common types of hazardous conditions found were fire extinguishers that were blocked by stored materials or equipment, fire doors that were propped open and gas cylinders that were stored improperly. The periodic safety, fire prevention, and clean-up inspections and campaigns that are conducted in the Y-12 plant has probably eliminated many of the more serious fire hazards. Continued emphasis on good housekeeping should eliminate more of the minor hazards." . . . C. R. Schmitt (for J. M. Schreyer), Development Division.

"The most prevalent conditions found during the Fire Prevention Week Inspections were poor housekeeping and lack of maintenance of Fire Doors. The best contribution that each of us, as Y-12 employees, could make regarding fire safety would be:

1. Pay more attention to general housekeeping by keeping all work areas clean.
2. Observe Fire Safety Rules and report any violations or hazards to Supervision for correction." . . . George W. Peach, Assembly Division.

"The general condition found in the buildings and surrounding areas during this fire inspection indicates the effect of a well-planned and publicized program of fire protection agendum. It is also an indication that the program is being well observed by plant personnel." J. R. DeMonbrun, Shift Superintendents and Utilities.

Thus, the consensus was throughout the committee that generally improved conditions did exist this year. Last year's 'red-flagging' brought results that had heretofore been lagging. Employees became more conscious of fire hazards when the red flag appeared in their area . . . and were prompt to do something about it.

## 'Let's Give Our Fair Share'

Good citizenship has been the hallmark of Y-12ers since the beginning of the plant . . . more than 20 years ago.

I know of no other way in which an employee can serve his fellowman in a better capacity than in the United Fund. In giving to community services included in the various counties represented in the plant, each employee knows that his dollar is going where it will count the most.

And the need for community services is always with us. There are broken homes, unhappy children, restless teen-agers, destitute families . . . all of which need our attention immediately. United

giving through the United Fund helps alleviate many of these community problems.

It is my firm belief that Y-12 will again show its capacity for good citizenship in support of these worthwhile endeavors.

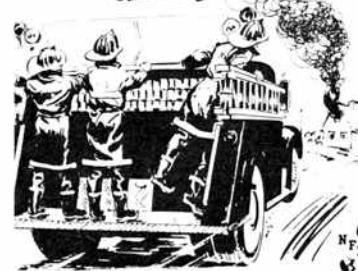

This is the only appeal made during the entire year to Y-12ers.

Let's better our record-breaking record of past years by going over the top again this year. It will be a constant source of pride to all of us to know that Y-12 has done and continues to do its fair share in the many communities represented in the plant.

*R. F. Hibbs*  
R. F. Hibbs

Y-12 Plant Superintendent

**PREVENT FIRES**  
...it's your job, too!

FIRE PREVENTION WEEK OCT. 4-10

Dabbs, who coordinated the efforts in Y-12 this year, made the wry comment that they had a lot of red flags left over after the inspections this year. "We planned the same amount for 1964 as was used last year . . . but they just weren't needed," he said.

All inspectors heavily emphasized the fact that fire prevention is a year 'round proposition, and not just a one-week hit-and-miss deal. Keeping areas clean and fire-fighting equipment clear were the main points stressed in all the inspections. Good housekeeping, as usual, was the key-word throughout the plant.

## Moon-Shot Photos Is Topic Of Bell's Talk

P. R. Bell, Thermonuclear Division, will discuss "Pictures from Ranger-7 Moon Shot" in this week's Physics Seminar.
